PROFILE

- A motivated diploma candidate in computer science with hands-on experience in IT support, network troubleshooting, and hardware maintenance. Recently worked as a support engineer at Avant Technology Limited. Assisting in critical surveillance system deployments for the Bangladesh Police. Completed industrial attachment at Tech Elevate Ltd. Proven ability to diagnose connectivity issues, provide on-site support, and collaborate effectively within technical teams. Eager to launch a full-time career as a support engineer in a dynamic IT environment.

PROFESSIONAL EXPERIENCE

Avant Technology Limited **Support Engineer**

January 2026 – January 2026 | Bangladesh Police Headquarter

- Avant Technology Limited is one of the top integrated solution providers and pioneers in the country for surveillance systems. Their most recent work includes 10,000 offline body-worn cameras for Bangladeshi police officers and 300 data collection stations for police stations. We have thoroughly explored the thirteenth national election. I have been working here for a month. My voyage was delightful.

Tech Elevate (Sister Concern of "Race Online Limited") **Industrial Attachment**

September 2025 – December 2025 | Dhaka, Bangladesh

- Mikrotik
- CCNA
- CompTIA A+
- Windows Server

PROJECTS

Bangladesh Bureau of Educational Information and Statistics (IEIMS Project)

Data Entry Operator

December 2021 – April 2022

- The Integrated Educational Information Management System (IEIMS) project, under BANBEIS, aims to establish a comprehensive system for managing educational information. This involves developing a database, implementing hardware and network infrastructure, and providing training and resource centers. The project is funded by the Government of Bangladesh (GOB) and is part of BANBEIS's broader efforts to improve education through technology.

CERTIFICATES
